In the audience there were about 35 of the cadets who are spending their Christmas leave of absence in this city. This was the first time the cadets have played a game off their own grounds, and this fact brought out a large number of people who were anxious to see how the future naval offirather the heavier and stronger individually, but this advantage was more than counterbalanced by the superior team play and train- Munich theaters are closed.

JOHN F. ELLIS & CO., I ALLET & DAVIS UPRIGHT GRAND PIANOS;

THE HARDMAN UPRIGHT PIANO IS THE ONLY
Plano made in the world which positively improves with use, in all climates. This is a very strong assertion, but we can substantiate it by testimony which is irresistible. Other pianos deteriorate, owing to the Ioundation-tone being invariably metallic. By the Hardman method of construction, however, which is based upon the violin principle of resonance, use only tends to develop the beautiful tone which exists in the very basis of the instrument.
